

To Whom it May Concern,

In the industry we have tried to use nothing but the best contractors when it comes to projects that we need handled. Trademark Contractors has assisted us with several projects across Alabama, Tennessee, South Carolina, North Carolina, Georgia, & Florida. We find that they have shown a diverse knowledge of the roofing industry. They have performed several reroofs for us in Georgia for Inn Town Suites properties. We have utilized them to tarp roofs in Alabama after storms and reroof structures such as the Library in Pratt City, AL. We have also used their knowledgeable crews on commercial TPO flat roofs in Alabama and Florida. These are just a few of the projects they have completed for us. We value our relationship with Trademark Contractors and look forward to future projects. We would recommend Trademark Contractors for any project in the roofing industry whether it is your personal residence or a large scale commercial project.
